17. From the marks assigned to candidates in each subject such deduction will be made as the Civil Service Commissioners may consider necessary in order to secure that no credit is allowed for merely superficial knowledge.

18. If a candidate's handwriting is not easily legible, a deduction will be made on that account from the total marks otherwise accruing to him.

19. A list of the competitors shall be made out in order of their proficiency, as disclosed by the aggregate marks finally awarded to each competitor, and, in that order, so many competitors, up to the determined number of appointments, as are found by the Civil Service Commissioners to be qualified by examination shall be designated to be selected candidates for the Indian Civil Service, provided that the Governor General of India in Council is satisfied that they are qualified in other respects.

Should any selected candidate become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled or not. In the former case, the candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected candidate.

20. Selected candidates will be on probation for two years in the United Kingdom.

In pursuance of section 2 of the Rules Publication Act, 1893 (56 and 57 Vict., ch. 66) the Secretary of State for India in Council certifies that on account of urgency the foregoing rules are made as provisional rules to come into operation forthwith.

DEPARTMENT OF AGRICULTURE, BENGAL.

Forecast of the Winter *Til* (Sesamum) Crop of Bengal, 1921-22.

[NOTE.—On an average of the five years ending 1919-20, the area under *til* in Bengal has represented some 4·9 per cent. of the total area under *til* in British India.]

Character of the season.—Good rainfall in August generally facilitated the sowings which commenced at the usual time. The rainfall in September, though below the average, caused sufficient moisture to be retained in the soil thereby helping the growth of the crop in its early stage. Prolonged drought then followed and the yield has, in consequence, been adversely affected, more especially in Bankura, Pabna and the Chittagong Hill Tracts. On the whole the season was unfavourable for the crop.

Acreage.—The total area sown with the crop this year is estimated at 44,900 acres against 43,900 acres last year.

Outturn.—According to District Officers' estimates, the outturn of the crop for the province as a whole works out at 73 per cent. of the normal against 69 per cent. last year. Taking 6½ maunds as the normal rate of yield per acre, the gross outturn for the province is estimated at 7,400 tons this year against 6,800 tons last year.

G. EVANS,
Director of Agriculture, Bengal.

DACCA, *the 22nd December 1921.*

APPENDIX I.

Forecast of the winter *til* crop of Bengal, 1921-22.

District.	Estimated normal area under winter *til*.	Estimated area under winter *til*.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which sowing generally began this year and whether that date was early, normal or late.	Date by which harvesting generally commenced this year and whether that date is early, normal or late.	Remarks by District Officers.

	Acres.	Acres.	Acres.					
24-Parganas ...	300	300*	300*	92	75	August. Late ...	End of October. Normal.	The weather has not been favourable. Damage to the extent of two annas owing to want of timely rain is reported from the Diamond Harbour subdivision. Hence the outturn is below the normal.
Nadia ...	5,300	1,000	900	50	50	Middle of August. Normal.	Middle of November. Normal.	The decrease in area is due to excessive rainfall at sowing time. Want of rain during the period of growth has affected the crop causing the outturn to fall much below the normal.
Murshidabad ...	4,100	1,100	1,000	75	67	End of August to September. Normal.	End of December. Normal.	The decrease in area is due to unfavourable weather at sowing time. The outturn is anticipated to fall much below the normal owing to want of rain which caused damage to the extent of 33 per cent.

1. The rate of cost to be recovered will be Re. 1 per acre except in the case of fields entered in the record as finally published in the khatians of proprietors and tenure-holders. For such lands referred to in clause 5 below as khas lands, the rate will be 10 annas.

2. Of the rate of Re. 1. raiyats including utbandi raiyats in respect of the land of which they have been recorded with occupancy rights and persons holding non-agricultural tenancies shall pay 6 annas and their landlords of all grades together 10 annas per acre.

KING'S POLICE MEDAL.

NOTIFICATION.

(POLICE.)

Delhi, the 2nd January 1922.

No. F.-45.—His Majesty the KING, EMPEROR OF INDIA, has been pleased to confer the King's Police Medal, and in two cases a bar to the medal previously awarded, on the following officers and men of the Indian Police establishments :—

BENGAL.

Name of officer and rank.	Statement of services for which in particular the decoration has been conferred.
20. John Alphonse Marie Joachim Goldie. Deputy Commissioner of Police, Calcutta, and officiating Deputy Inspector-General of Police, Intelligence Branch, Criminal Investigation Department, Bengal.	This officer joined the Indian Police in 1908, and was employed on district work until September 1916, when he was specially selected to hold charge of the Special Branch of the Calcutta Police, an appointment involving heavy and dangerous duties. This Department, while under Mr. Goldie's control, was responsible for the cessation of political crimes not only in Calcutta but, in co-operation with the Intelligence Branch, throughout Bengal. Throughout his service in this department, Mr. Goldie has shown great devotion to duty and has performed valuable political and secret work, often at considerable personal risk. On one occasion he succeeded after a struggle in capturing an absconder armed with a loaded revolver.
21. Jagadish Dube, Constable, Hooghly district. 22. Baliram Singh, Constable, Hooghly district.	These constables, in February 1921, displayed conspicuous gallantry in the arrest of the leader of a gang of burglars whom they had surprised after midnight in a shop at Bansberia. The gang, numbering about ten in all, turned on the constables, wounding Jagadish Dube with a knife. The latter, with the aid of his fellow-constable Baliram Singh, clung tenaciously to one prisioner, whose arrest was effected, and who proved to be a notorious Punjabi offender with six previous convictions.
23. Babu Umesh Chandra Chanda, officiating Deputy Superintendent of Police, Dacca.	This officer joined the Bengal Police as a Sub-Inspector in the year 1894. His work has always been of an exceptionally high standard. In several enquiries of a secret nature he has displayed both tact and courage and has throughout his service proved himself a most trustworthy and zealous officer.
24. Francis John Lowman, Superintendent of Police.	This officer joined the Indian Police in 1903, and was posted to the Bombay Presidency. In 1908, his services were transferred to Eastern Bengal and Assam, where, under circumstances calling for the exercise of the highest qualities, he proved himself a most efficient officer. From April 1912, he held charge of the Special Branch of the Calcutta Police, where for four years he showed a whole-hearted devotion to duty, and exceptional ability. Subsequently, while on district duty, his rare tact and insight elicited special comment. He has performed valuable political and secret services at considerable personal risk.

DEPARTMENT OF STATISTICS, INDIA.

CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade by all routes, *i.e.*, by rail, river, canal, road, and sea, of the Calcutta block* in certain selected articles during the seven months, April to October, 1921, as compared with the corresponding period of 1920 and 1919. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the Collectors of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

General Summary.

Imports.—The imports of rice, including paddy†, into Calcutta* by rail, river, canal, road, and sea (coastwise) during the seven months, April to October, 1921, amounted to 7,971,000 maunds, as against 5,564,000 maunds in the corresponding period of the preceding year,—an increase of 2,407,000 maunds or 43 per cent, being chiefly due to larger imports of rice from Burma. There was a decrease of 17 per cent in the imports of coal and coke (67,526,000 maunds as against 82,093,000 maunds a year ago). The value of the imports by rail, river, road, and sea (coastwise) of Indian cotton piecegoods showed a decrease of 7 per cent, the total value amounting to Rs. 6,19 lakhs as against Rs. 6,65 lakhs in 1920. The quantity of indigo imported during the seven months, April to October, 1921, decreased from 3,473 maunds last year to 1,136 maunds. The imports of raw jute amounted to 2,286,000 bales as against 3,078,000 bales,—a decrease of 792,000 bales or 25 per cent. The importations of gunny bags also showed a decrease of 86 million bags (183 million bags against 269 millions in the preceding year). The total imports of oilseeds (linseed and rape and mustard seed) decreased by 313,000 maunds, or 6 per cent, from 4,781,000 maunds to 4,468,000 maunds and those of sugar decreased by 182,000 maunds, or 35 per cent, from 521,000 maunds to 339,000 maunds. The imports of tea, on the other hand, increased from 1,281,000 maunds to 1,556,000 maunds or by 21 per cent.

Exports.—The value of the exports of cotton piecegoods, foreign, from Calcutta* by all routes during the seven months, April to October, 1921, decreased by 21 per cent from Rs. 14,72 lakhs to Rs. 11,58 lakhs. The exports of gunny bags (including the exports by sea to foreign countries) decreased from 843 million to 615 million bags, but the shipments of gunny bags to other Indian ports increased from 23 to 37 millions in number in the period under review. The quantity of kerosene oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) also increased from 3,199,000 maunds to 3,428,000 maunds, or by 7 per cent.

* The Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.
† One maund of paddy is equivalent to 25 seers of rice.

Receipts.

(a) The decrease in the year 1919-20 was due to small number of cattle registered owing to delay in the cart tracks. The increase during the year 1920-21 was due to revision of assessment.

(b) The decrease of Rs. 23 during the year 1919-20 was due to the fact that the income on account of "Sale Proceeds of impounded cattle" was deer ased and that the increase effected during the year 1920-21 was due to receipt of Petroleum fees paid by the Standard Oil Co. Ltd. &c.

(c) The decrease in the years 1918-20 and 1920-21 was due to small number of trees sold from Municipal parks.

(d) The full amount of contribution from Government for the Health Officer could not be drawn in consequence of any Health Officer and also for refund of the amount paid by the Imperial Govt. for Primary Education.

(e) The increase under this head during the year 1918-20 was for recovery of cost of actual work done to private buildings and a decline of Rs. 18 during the year 1920-21 is very slight and calls for no explanation.

Expenditure.

(1) The increase under this head during the year 1919-20 was due to entertaining the services of a full season and purchase of a typewriter and a slight increase in 1920-21 which was due to payment of compensatory allowance to the Medical subordinate officer.

(2) The increase was due to increase in the price of Kerosine oil, &c.

(3) The two successive Health officers resigned their office on receipt of better appointment under the District Board and in consequence of which the said officer was not kept all round the year, hence the decrease.

(4) The increase was due to payment of Imperial Grant for the Primary Education and payment of contribution to Public Library here.

(5) The increase under this head for the years 1918-19 and 1919-20 was due to institution of Civil suits and price of printed forms. The decrease in the year 1920-21 was due to less amount spent for the above purposes.

The normal surplus which may be expected in future, (*e.*, the difference between the "average ordinary income and the average ordinary expenditure" calculated on the figures in columns 13 to 15 and 17 to 19, respectively.

In addition to the details required on the reverse, clear information should be given below under the following heads :—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the Municipality has taken, or has agreed to take, in order to make good the deficiency.	A water rate at 7½ per cent. on the annual value of holdings will fetch an annual income of Rs. 24,000 which will meet both the recurring and loan charges.
(*b*) The reserve of taxation or other possible means of increase in the revenues of the Municipality.	Installation of water-supply scheme will possibly improve the sanitation of Krishnagar, so people will build new houses which will go towards the increase of income.
(*c*) A statement of all outstanding loans specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved, and the amount still payable.	Rupees 1,00,000 for the water works scheme ; 2nd January 1921. The first instalment of repayment of loan will fall due on 22nd October 1922, if the water-works be completed by March 1922.
(*d*) Any explanations in regard to receipts and expenditure to show the true financial position of the Municipality when such position is otherwise than the ordinary surplus would indicate.	The receipt of water tax on the whole will show a tendency to rise after completion of water works scheme, as it is expected that many people will come back to their ancestral houses who have left for malaria, etc.

No. 361P.H.—The 14th January 1922.—The following draft of a by-law which had been framed by the Commissioners of the Sherpur Municipality, in the district of Bogra, under section 350 of the Bengal Municipal Act, 1884 (III of 1884), and which the Government of Bengal (Ministry of Local Self-Government) propose to confirm under section 351 of the Act, is published for the information of persons affected thereby.

Bogra.

The draft will be taken into consideration on the 1st March 1922, and any objection or suggestion received by the undersigned through the District Magistrate before that date will be duly considered :—

" Any person having possession of or control over any land or water on or in which there exists any water hyacinth shall, if so required by a notice in writing signed by the Chairman or the Vice-Chairman of the Municipality, destroy such water hyacinth to the satisfaction of the Commissioners within the period mentioned in such notice, provided that such notices (*a*) shall be issued simultaneously for the whole of the municipal area and (*b*) shall not be issued oftener than once a year.

Non-compliance with the notice will be punished with a fine of Rs. 50 only, plus a fine of Rs. 5 for every day of default."

REPAYMENT OF LOAN.		Remarks.
(f) The number of instalments in which the loan is repayable and the dates of payment thereof.	(g) Amount of each instalment.	
	Rs. 1,081*	The normal surplus which may be expected in future, viz., the difference between the average ordinary income and the average ordinary expenditure, calculated on the figures in columns 13 to 15 and 17 to 19, respectively.

*A full explanation is given in paragraph 2 of my letter submitted herewith as well as in statement D on the records.

In addition to the details required on the reverse, clear information should be given below under the following heads :—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the borrowing body has taken, or has agreed to take, in order to make good the deficiency.	(*a*) Though the ordinary surplus falls short on account of payment of liabilities due to land acquisition and those of Messrs. Jessop & Co., position is otherwise than the normal surplus indicates. The municipality has had no such liability to meet for some years to come save and except the ordinary expenditure. So there will be an adequate amount entirely sufficient to liquidate the loan.
(*b*) The reserve of taxation or other possible means of increase in the revenues of the local body.	(*b*) There is still room for enhancement of the water rate by ½ per cent. Further the general revision of assessment which is to take effect from the next official year will secure an additional income, in view of the large number of houses being built and improvement effected to older ones an additional income of Rs. 2,000 and possibly more.
(*c*) A statement of all outstanding loans as well as the annual charges involved on their account.	(*c*) A loan of Rs. 25,000 was taken on 23rd March 1918 as per Municipal Department letter No. 782M., dated 18th March 1918, for water supply scheme repayable in twenty years by annual payment of Rs 2,163 principal including interest. The unpaid amount of this loan is at present Rs. 22,457-7-3.
(*d*) Any explanation in regard to receipts and expenditure to show the financial position of the municipality when such position is otherwise than the ordinary surplus would indicate.	(*d*) The deficit in the normal surplus does not show the true financial position of the municipality. Even after payment of the heavy amount of Rs. 30,835 in respect of water works, capital outlay and establishment charges, etc., the balance on 31st March was Rs. 5,662, which clearly states the position of the municipality other than what the deficit in the normal surplus indicates.

No. 1276-C.S.R.

Delhi, the 27th December 1921.

RESOLUTION.

His Majesty's Secretary of State for India has been pleased to decide that additional pensions shall be granted to military officers who have held certain high civil posts and have fulfilled the conditions stated in the following paragraphs.

2. The additional pensions will be of two classes; a higher pension of £200 a year and a lower pension of £100 a year. Their grant will be subject to the condition that the total pension of an officer receiving the higher class additional pension shall not exceed £1,000 a year and that of an officer receiving the lower class shall not exceed £900 a year.

3. (*a*) The pensions will be earned by approved service of the following kinds in a qualifying post :—

(*i*) Three years' substantive service ; or
(*ii*) Three years' continuous officiating service ; or
(*iii*) Three years' continuous officiating and substantive service.

(*b*) All privilege leave, and all leave which, under the terms of the Resolution of the Government of India in the Finance Department, No. 1260-C.S.R., dated the 21st December 1921, counts as privilege leave, will, if taken during such service, count as service.

4. The posts qualifying for the higher pension will be all civil posts which now carry a pay of not less than Rs. 4,000 a month. The posts qualifying for the lower pension will be all civil posts which now carry a pay of not less than Rs. 3,000 a month.

5. The period of three years' service prescribed in paragraph 3 above is an absolute minimum, and no portion of either class of additional pension will be admissible to an officer who has held a qualifying post for a shorter period. A period of three years, spent partly in a post or posts qualifying for the higher, and partly in a post or posts qualifying for the lower class additional pension, will, however, entitle an officer to a lower class pension.

6. An officer serving in a post on a progressive or time-scale pay rising to a maximum of Rs. 3,000 or of Rs. 4,000 will be entitled to count as qualifying for a lower or higher pension, as the case may be, that portion only of his service during which he has drawn the maximum pay of the post.

7. These rules will apply with effect from the 1st April 1919 to all officers who retired from civil employ after the 4th August 1914. They will apply to an officer who retired from civil employ before that date if he was recalled during the great war for further civil employment in a qualifying post in India and completed in all three years' service in such a post.

Exemptions.

7. (*1*) The entertainments tax shall not be charged on payments for admission to any entertainment where the Local Government are satisfied— [*Cf.* 6, Geo. V, c. 11, s. 1(*5*) and 11, Geo. V, c. 31, s. 7(*2*).]

(*c*) that the entertainment is intended only for the amusement of children, and that the charge is not more than one anna for each person; or

(*d*) that the entertainment is provided for partly educational or partly scientific purposes by a society, not conducted or established for profit; or

(*e*) that the entertainment is provided by a society which is established solely for the purpose of promoting the interest of the industry of agriculture, or the manufacturing industry, or some branch thereof, or the public health, and which is not conducted for profit, and consists solely of an exhibition of the products of the industry, or branch thereof, for promoting the interests of which the society exists, or of materials, machinery, appliances, or foodstuffs, used in the production of those products, or of articles which are of material interest in connection with the questions relating to the public health, as the case may be.

(*2*) The Local Government may, by general or special order, exempt any entertainment or class of entertainments from liability to the entertainments tax.

Refunds in certain circumstances.

8. Where the Local Government are satisfied that the whole of the net proceeds of an entertainment are devoted to philanthropic or charitable purposes, and that the whole of the expenses of the entertainment do not exceed twenty per cent. of the receipts, they shall repay to the proprietor the amount of the entertainments tax paid in respect of the entertainment. [*cf.* 6, Geo. V, c. 11, s. 1(5).]

Recoveries.

9. (*1*) Any sum due on account of the entertainments tax shall be recoverable by the Local Government as a public demand.

(*2*) Any fine imposed under this chapter shall be recovered in the manner provided in the Code of Criminal Procedure, 1898, for the recovery of fines. Act V of 1898.

Inspection

10. Methods of recovery of totalisator tax and betting tax

20. (*1*) The totalisator tax payable under section 14 shall be recoverable as a public demand from the racing club conducting the meeting, and any portion of such tax which is not so recovered, shall also be recoverable as a public demand from the stewards of the race-meeting jointly and severally.

(*2*) All monies which a licensed bookmaker is liable to make over to the prescribed officer under section 18 shall be recoverable from the licensed bookmaker as a public demand.

Rules.

21. The Local Government may make rules for securing the payment of the totalisator tax and the betting tax, the production and inspection of accounts kept under this chapter and generally for carrying into effect the provisions of this chapter, and for dealing with such matters as are therein directed to be prescribed.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to provide additional revenues for the province of Bengal in order to remove part of the existing deficit in the provincial revenues. Chapter I is based on the Acts whereby taxation on entertainments on the same lines has been imposed in the United Kingdom. Chapter II deals with the taxation of totalisators and certain forms of betting, and is based on the Acts in force in Queensland and Victoria with modifications in the direction of simplicity rendered possible by the extensive control conferred on Government by the Bengal Public Gambling (Amendment) Act, 1913. Ben Act IV of 1918

Notes on clauses.

Clause 1.—The proposed Act will extend to the whole of Bengal. It is, however, intended in the first instance to restrict its coming into operation to Calcutta, the maidan portion of Fort William with the Esplanade and a portion of Hastings, the Barrackpore Cantonment and certain suburban and other municipalities, power being taken to bring the Act into operation in any other area in Bengal by notification.

Clauses 3 to 6—are based on section 1 of the Finance (New Duties) Act, 1916 (6 Geo. V, c. 11), with necessary modifications. In section 5 the provisions of the English Act for a fixed fine on the proprietor in the event of illegal admissions have been retained, as it is specially the business of the proprietor to see to the observance of the law, but the Court has been given a discretion in regard to the fine that shall be inflicted on any person admitted to an entertainment without payment of the tax.

Sub-clause (1) of clause 7—is based largely on the English Act, as amended by section 7 of the Act of 1921, but by sub-clause (2) power is given to the Local Government to exempt any entertainment or class of entertainments from liability to the entertainments tax.

Clauses 8 and 10—are also based on the English Act, with the alterations necessary on account of local conditions.

Clause 9—deals with the methods for the recovery of arrears of the entertainments tax and of fines.

Clause 11—is a rule-making clause in regard to the entertainments tax.

Clause 12—empowers the Local Government to delegate certain of their powers under Chapter I.

Clause 13—provides for the levy and payment of the totalisator tax.

Clause 15—provides for the manner in which sums received on account of the totalisator tax are to be made over to the Government by the stewards.

Clause 16—provides for the keeping of accounts of the totalisator tax.

Clauses 17 and 18—provide for the levy and payment of the betting tax.

Clause 19—provides for the furnishing to Government of lists of bookmakers and for the keeping of accounts by licensed bookmakers.

Clause 20—imposes liability on racing clubs, and the stewards in respect of the totalisator tax, and on licensed bookmakers, in respect of the betting tax.

Clause 21—gives power to the Government to frame rules in regard to the totalisator tax and betting tax.

Audit certificate and report on the accounts of the Calcutta Port Trust and of the Howrah Bridge for the year 1920-21.

CERTIFIED that the accounts of the receipts and expenditure of the Calcutta Port Trust and the accounts of the Howrah Bridge for the year 1920-21 have been audited and examined under our supervision.

Certified also that the printed balance sheets and the statements of income and expenditure prepared from the accounts have been checked and found to agree with the books. They have been signed by us subject to the following remarks :—

1. The actual expenditure of the Trust on Revenue Account exceeded by Rs. 9,69,260-10 the revised estimate framed by the Commissioners in March 1921 and sanctioned by Government in May 1921, while the income was more than this estimate by Rs. 13,409-4-6 only. The excess in expenditure requires the approval of Government

RESOLUTION ON THE REPORT OF THE MAGISTERIAL ENQUIRY INTO THE OCCURRENCE AT HOWRAH ON THE 4TH NOVEMBER 1921.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

CALCUTTA, THE 12TH JANUARY 1922.

RESOLUTION—No. 584P.

READ—

The report of the magisterial enquiry into the occurrence at Howrah on the 4th November 1921.

On the night of the 4th November last, there was a serious riot at Howrah in the course of which shots were fired by the police, and Govern-

ment have now received the report of the enquiry into the incident held by Mr. Prance, District Magistrate of Howrah.

The riot was divided into two distinct stages, and details of each are given in the report. The first consisted of an attack on the Assistant Magistrate and Assistant Superintendent of Police and a small body of police by a riotous mob coming from a Khilafat meeting. The mob overpowered the small police force and drove them into the thana, inflicting more or less severe injuries on several of them. The building was then besieged and bombarded with stones, and it was not until two shots had been fired into the air that the thana compound was cleared and the crowd retired to a short distance where they remained threatening to renew the attack. At this point the District Magistrate arrived, and under his instructions the police charged and dispersed the mob, which disappeared on the arrival of reinforcements of armed police. No serious injuries appear to have been caused in this charge.

The second stage was the attack on the police reinforcements which were summoned from the reserve lines to assist the thana police. The first body of police that left the lines comprised 20 unarmed constables carrying *lathis*. They were at once met by a big crowd which attacked them with stones and *lathis* and forced them to take refuge in a police barrack until the armed police arrived. The armed police consisted of 25 constables in small detachments under Inspector Gould and Sergeant Day. They were met by a threatening crowd which refused to disperse and attacked with a shower of stones. A certain number of shots were fired—the District Magistrate estimates between 5 and 10—and the mob dispersed. His Excellency in Council accepts the conclusion of the District Magistrate that no order to fire was given but only an order to charge, and that a small number of armed police lost their heads and fired in the excitement of the moment A considerable proportion of the armed force were men with comparatively short period of service ; they were surrounded by a threatening mob many times their number ; and were faced with a shower of stones while some of their number had received very serious injuries. The Governor in Council regrets that their discipline was not sufficiently strong to prevent firing without orders, but he recognises that the circumstances in which they were placed were sufficient to try the discipline of much more seasoned men.

Eight men have been convicted for participation in the original attack upon the police and on the thana and have been sentenced to six months, rigorous imprisonment under section 147, I.P.C. and ordered under section 106, C.P.C. to execute bonds to keep the peace for one year after their release from Jail.

Ordered that this Resolution together with the magisterial report be published for general infomation.

By order of the Governor in Council,

H. L. STEPHENSON,

Chief Secretary
to the Government of Bengal.

Report of the magisterial enquiry into the occurrence at Howrah on 4th November 1921.

Enquiry opened on the 7th November and closed on the 13th November. The opening of the enquiry was proclaimed by beat of drum, inviting all who had any knowledge of the occurrence to appear and give evidence. On the 11th a second proclamation was made stating that the enquiry would close on the 12th unless the examination of witnesses appearing on the 12th could not be completed. Special notices were served on some members of the public as I was told they might be able to give useful evidence.

Of the 83 witnesses examined all except 8 were public servants and of the 8 witnesses who were not in Government employ only 2 witnesses gave evidence on material points. I attribute the failure of the public to come forward and give evidence to three reasons. First that the men who knew most about the occurrence were actually concerned in the occurrence and could not give evidence without incriminating themselves. Second that some of the men who might have given evidence are non-co-operators and abstained for this reason, *e.g.*, the volunteer leaders who tried to turn back the crowd from the south. Third an application had been sent to Government for the appointment of a mixed committee of enquiry and people may have been dissuaded from coming forward. A pleader who said he was watching my enquiry on behalf of the public stated that witnesses would not come forward unless a mixed committee were appointed. At a later stage of the enquiry he announced that as the majority of the members of the bar were of opinion that no member of the bar should watch the enquiry he retired in deference to their opinion.

From the evidence adduced before me and from what I saw with my own eyes I believe that what occurred was as follows:—

At about 9-30 P.M. on the evening of the 4th November Mr. Larkin, Assistant Magistrate, and Mr. Kelly, Assistant Superintendent of Police, hearing a noice on the maidan went out to see what was happening. On the maidan they separated, Mr. Larkin going to the left along the tram lines and Mr. Kelly to the right by the central road. Mr. Kelly had received orders from the Superintendent of Police to have 30 unarmed constables at Howrah thana to see that people went home quietly after the meeting and was on his way to the thana to carry out this order. On the maidan Mr. Kelly met a large party of volunteers and others. They were shouting and he asked them to move on but they crowded round him. The leader of the volunteers came up and asked what was the matter. Mr. Kelly told him that now the meeting was over the crowd should disperse. He agreed and walked down the road towards the thana with Mr. Kelly. At the junction of Avenue Road and Grand Trunk Road Mr. Kelly and the volunteer leader met Mr. Larkin who had come round more quickly by a longer route and two sergeants and another conversation with the leader of the volunteers took place. The leader spoke to the crowd and they began to move off towards the north. While this conversation was going on the Deputy Superintendent of Police, another sergeant and some constables with *lathis* came up. Just after the first crowd began to move off a second crowd came shouting from the south from the direction of Sibpur. Mr. Larkin went towards them and the Deputy Superintendent followed. Two leaders of the first party also ran forward and held up their hands and tried to stop the second party shouting telling them not to make a *golmal*. The second party did not listen and began to throw brickbats. Mr Kelly and some constables who were behind were first struck by brickbats and then Mr. Larkin was hit on the head by a tile. A fight began on the road between the constables—about 20 armed with *lathis*—and the crowd. The police first drove back the crowd and according to Maulvi Muzibar Rahaman one man was knocked down and dragged into the thana compound and was beaten. Then the police were driven back and took refuge in the thana. Mr. Larkin was also taken to the thana. The fight continued at the gate and inside the thana compound and brickbats were thrown into the thana. While the fight was in progress information was given to the Superintendent of Police and the District Magistrate. Mr. Kelly ordered the alarm to be given at the police lines and that all available men armed and unarmed should turn out and proceed as quickly as possible to Howrah thana. Before the occurrence commenced by Mr. Larkin being struck by a tile, Sergeant Ottman had telephoned to the lines to get ready. Muzibar Rahaman says that he used the words "jaldi uthar armed police jaldi mangte hai."

But this warning seems only to have reached some constables and no action was taken upon it, as Sergeant Day says that the first news he received was from Mr. Kelly and this message was sent while the attack on the thana was in progress.

While the thana was being attacked the Sub-Inspector in charge of Howrah thana issued two rifles to two constables and ten rounds of ammunition (buckshot). One of the constables fired a short into the air and the crowd who were attacking the thana ran away. The constables pursued and arrested some men in the thana compound and some outside while running away. Previously three arrests were apparently made—one in Harcourt's Lane by orders of the District Deputy Inspector of a volunteer running away when the police first drove back the crowd after Mr. Larkin was hit, and two men at the gate of the thana compound during the early stages of the attack. Sergeant Belcher who had taken one of the rifles issued by the Sub-Inspector from a constable went out into the maidan and seeing a crowd, who did not disperse when he shouted to them, fired a shot in the air and they ran away. Maulvi Muzibar Rahaman deposed that he heard three shots. I can find no other evidence of the third shot and believe that the witness made a mistake on this point. Three cartridges issued from Howrah thana were used that night but the third was fired long afterwards a long way down the Sibpur road. The witness took refuge in Mr. Horan's quarters when the attack on the thana began and did not show himself again till about an hour later until after the armed police had arrived and marched off again. He says he did not see me, though I was standing in the open in the middle of the road for nearly half-an-hour. Constables were brought out from the thana by Mr. Kelly and were posted on the road on both sides of the thana gates. I reached the thana about 10-30. The first message I received said that it was impossible for me to reach the thana as it was then surrounded. I spoke to the Superintendent of Police and ascertained that all available police were being brought up from different directions. I waited a little while and again rung up the thana and ascertained that it was now possible to reach the thana I found pickets of police posted on the Grand Trunk Road. A crowd was standing near the Cinema on the Grand Trunk Road throwing an occasional stone. I stood waiting for reinforcements in the road between the crowd and the police picket for about half-an-hour. I saw Mr. Larkin and sent him to hospital to have his head dressed. At about 11 P.M. Mr. Kelly pointed out that the crowd were arming themselves with bamboos from the scaffolding on the new Cinema building. As it seemed probable that they were doing this for the purpose of attacking the police, I thought it better to wait no longer, and after shouting to the crowd to disperse, I ordered the constables—about 25 men—armed with *lathis* to charge. The crowd were probably two or three hundred in number. Most of the crowd ran away when we charged. Mr. Kelly received two blows from *lathis*. A number of the crowd were hit by constable with *lathis* and knocked down, but no serious injuries appear to have been inflicted as, when I collected the constables after driving the crowd about 100 yards, no one remained lying on the ground. Five or ten minutes later the armed police—about 25 strong—under Inspector Gould came up and reported that there had been a fight on the way and that some shots had been fired. The Superintendent of Police had gone to Chandmari bridge and with the aid of the constables from Golabari had prevented any crowd coming over the Chandmari bridge or from Ticciapara by Belilios Road. He came up at this stage and met me on the road in front of the thana.

I now deal with the occurrence which had taken place while the armed police were coming from the police lines which are situated on the Grand Trunk Road about two miles to the south of Howrah thana.

About 10-15 Sergeant Day received a telephone message from Mr. Kelly saying that all available armed and unarmed constables should be brought as quickly as possible to Howrah thana as a riot was taking place there. He reported to Inspector Gould, who was in command of the police at the lines and at once sounded the alarm.

Inspector Gould telling Sergeant Day to follow with the men left the lines on his bicycle alone. On reaching the tram terminus, Inspector Gould says that he was stopped by a man with a *lathi* and got off his bicycle. As he was in the act of drawing his revolver the man threw his *lathi* at him and hit him on the leg and then ran off to join a crowd standing in a lane shouting "maro." Inspector Gould then proceeded a short distance towards Sibpur thana but was confronted by a shouting crowd which he

estimated at some 3,000 men. They shouted "maro—police saleh." The Inspector took refuge in the compound of Mrs. Kearley's house and was joined by one constable armed with a rifle and one constable who had a *lathi*. The crowd threw stones into Mrs. Kearley's compound and house and broke some windows, but did not try to enter the compound.

The first party of constables to leave the lines were unarmed constables carrying *lathis*. They were only 20 in number and meeting a big crowd who threw stones and attacked them with *lathis* they took refuge in a police barrack where they remained till the armed police came. Five round of buckshot were made over to each armed constable before he left the lines. Next about 15 armed constables started in small detachments followed by Sergeant Day with about 10 armed constables. Sergeant Day says that his shoe came off and he stopped to pick it up and became separated from his men who went on. He was surrounded by a crowd with *lathis* and men throwing stones and ran into Sergeant Gould's old house and stopped there some minutes and then came out and proceeded, but he was again attacked and had to run into a lane and stay there some minutes. He then came out and went on and caught up Inspector Gould and his party. Inspector Gould had come out of Mrs. Kearley's compound on the arrival of some armed constables and had collected about 20 armed men. Inspector Gould found the way blocked by a big crowd. He ordered them to disperse but the reply was a shower of stones. Inspector Gould then gave the order charge. A general fight took place and several shots were fired by constables without orders. Inspector Gould states emphatically that he gave no order to fire. Of the 21 constables examined who took part in the fight 10 men say that the order given was "charge", 6 men say that the order was "charge—load—fire", 2 men say that the order was "load—fire", 2 men say "charge—fire" and 1 man says "unload—fire". On the evidence I believe that the only order given was charge and that in the fight some constables lost their heads and fired. Inspector Gould, an old soldier—is unlikely to have given an order "charge—load—fire". One constable died in hospital as the result of the injuries received in the fight. The Civil Surgeon held *post-mortem* and extracted a pellet from the brain and reported that death was due to "injuries to the brain due to gun shot". I sent the pellet received from the Civil Surgeon for examination by the Superintendent, Ammunition Factory, Dum Dum, who was of opinion that the pellet was a buckshot, but could not give any opinion as to what weapon it was fired from. There is no evidence that the crowd were in possession of fire-arms, and in these circumstances it must be presumed that the pellet was one of the buckshot fired by the police. Two of the civil police to whom rifles were issued at the lines received serious injuries and had their rifles taken from them by the crowd. I examined them in hospital at the close of the enquiry. Both received many *lathi* blows and one had his arm broken by a *lathi*. Another unarmed constable was stabbed and beaten with *lathis*. These three men appear to have received their injuries before the more serious fight began. In the fight 7 constables were struck by stones and received blows from *lathis*, but their injuries were not serious. It is difficult to ascertain accurately the number of shots fired by the police. Mr. Kelly on checking the ammunition at the lines found 19 rounds not returned. This figure gives the maximum of possible shots fired, but as Sergeant Day found 3 rounds next day on the scene of the firing it is extremely possible that other rounds were dropped and not picked up.

Inspector Gould was of opinion that about 6 shots were fired and Mr. Nicholson, who lives in Mrs. Kearley's house opposite which the fight took place and who watched the occurrence from a window, estimates the number at 5 or 6. It would, however, be very difficult for a witness to give an accurate estimate on this point. Three constables admit that they fired 1 shot each and 22 armed men took part in the fight. On the evidence it is probable that between 5 and 10 shots were fired and the remaining cartridges dropped on the road. As to the casualties of the rioters no evidence was produced before me. When the Superintendent of Police and I visited the scene of the fight no injured were found. Mr. Nicholson says that after the police marched off he saw a body in white clothes lying in the road and some 10 minutes later some Indians came and carried the body away. Two funerals were held by volunteers at which it was said the men had been killed by the police; but no report of their death was given to any official and the cause of death cannot be ascertained with certainty. Six men with gunshot wounds were admitted into a Calcutta hospital, of whom two have

been arrested and four are still in hospital. As these wounded men will be accused in a criminal case I have not examined them so as not to prejudice their defence in the regular trial which will shortly take place. It will be decided during the trial whether they received their wounds at the riot or not. There is no reason to believe that more than these eight men received gunshot wounds and the nature of the injuries of the two dead men have not been ascertained.

After the armed police had fired the crowd dispersed and no opposition was offered on their way to Howrah thana, though a few stones were thrown from lanes leading out of the Grand Trunk Road.

The Superintendent of Police and I marched with the armed police from Howrah thana to the scene of the fight and back. Crowds were seen in the side lanes, but dispersed on the threats of advancing against them. One man was arrested with a big *lathi* which he refused to give up. When the police were halted opposite a side lane Sergeant Belcher fired a shot in the air to hasten the dispersal of a crowd which were standing up the lane throwing stones. He fired before the Superintendent of Police or I, who were a few yards in front, could prevent him. As a consequence of his firing one of the armed constables also fired. No one appears to have been hit by either of these two shots which were unnecessarily fired without orders. It should be added that of the 20 rounds of ammunition issued by the Sub-Inspector, Howrah, 17 were received back unfired and two were fired by Sergeant Belcher, one on the maidan and one up the side street and one was fired into the air by the constable at Howrah thana. The stock of ammunition at Howrah thana is separate from the stock at the lines and the one shot fired by the constable up the side lane must be deducted from the shortage on 19 found by Mr. Kelly, leaving a possible maximum of 18 fired in the fight at the Sibpur cross roads.

On the evidence it is impossible to decide what was the immediate cause of the riot. Maulvi Muzibar Rahaman says that he met a volunteer running who told him that a volunteer had been arrested. He did not know the name of the volunteer who gave him this information and was not told the name of the man supposed to have been arrested. I believe that this occurred before any occurrence had taken place and before any arrest had been made. On this evidence it is not impossible that some false report of an arrest was spread and excited the crowd so that they attacked the police. The immediate cause of the riot was the inability of the Khilafat volunteers to control the crowd what they had collected. Two Khilafat leaders ran forward to try and stop the crowd coming from Sibpur, but their efforts were unsuccessful and stone throwing at once began. Probably rumour of what had occurred near Howrah thana spread and resulted in the gathering of a crowd whose object was to prevent the police coming up from the reserve lines at Sibpur.

The armed police during the fight fired without orders, and showed a lack of discipline which is much to be regretted. It is not possible to say whether a charge would have been sufficient to disperse the crowd. Had it failed Inspector Gould would have clearly been justified in ordering his men to fire as he had received orders to proceed to Howrah thana where a riot was in progress.

The occurrence clearly shows the weakness of the position at Howrah in the situation of the reserve lines where the armed police are quartered at a distance of two miles from the centre of the town. Neither the Magistrate nor the Superintendent of Police who live in the centre of the town could reach the armed police until after the fight as the rioters were between them and the police lines.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 258L., dated Calcutta, the 21st January, 1922.—The following Bill was introduced in the Bengal Legislative Council on the 19th January, 1922, and is hereby published for information, together with the Statement of Objects and Reasons annexed thereto :—

THE CALCUTTA IMPROVEMENT (AMENDMENT) BILL, 1922.

BILL

further to amend the Calcutta Improvement Act, 1911.

Preamble.

WHEREAS it is expedient further to amend the Calcutta Improvement Act, 1911, in the manner hereinafter appearing, in order to award a sum of fifteen *per cent.* on the market value of land acquired for the Calcutta Improvement Trust in consideration of

Ben. Act V of 1911.

the compulsory nature of the acquisition, in lieu of the costs hitherto awarded in substitution therefor;

It is hereby enacted as follows:—

Short title

1. This Act may be called the Calcutta Improvement (Amendment) Act, 1922.

Repeal of sections 2, 6, 7, 8, 9(*1*) and 12 of the Schedule

2. Sections 2, 6, 7 and 8, section 9, sub-section (*1*), and section 12 of the Schedule to the Calcutta Improvement Act, 1911, are hereby repealed in respect of all awards made after the commencement of this Act by the Collector under the Land Acquisition Act, 1894, as amended by the Calcutta Improvement Act, 1911, in regard to land acquired for the Calcutta Improvement Trust and in respect of all appeals or proceedings in connection with such awards.

I of 1894.

Ben. Act V of 1911.

STATEMENT OF OBJECTS AND REASONS.

The abolition of the payment of the usual 15 per cent. *solatium* in the case of land compulsorily acquired by the Calcutta Improvement Trust aroused considerable opposition when the Calcutta Improvement Act was passed. Some years later the Calcutta Improvement Trust, in making proposals to Government for the amendment of the Act of 1911, recommended that the 15 per cent. *solatium* should be restored, and a formal resolution to this effect was moved in the old Legislative Council by Rai Bahadur Radha Charan Pal in 1919. In the Government reply to that resolution it was stated that Government proposed to legislate so as to restore this *solatium* in the case of all street schemes, although not in the case of general improvement schemes, which are ordinarily designed to remedy insanitary conditions produced by the improper use of land. It was, however, ultimately decided by Government that, as the majority of the schemes undertaken by the Calcutta Improvement Trust were actually street improvement schemes, it was desirable that the limitation on the grant of the *solatium*, which had been originally approved, should be removed, and that the provisions of the Land Acquisition Act on this point should be restored in their entirety. In the meantime several other defects in the Act had been revealed as the result of some years' experience, and it was decided to undertake a thorough revision of the Statute, but as the Reforms were shortly to come into operation, it was resolved that the amending Bill, which had been drafted, should be submitted to the Minister, Local Self-Government Department, for his examination Certain points raised in the larger Bill are still under discussion, and as it is not considered equitable that the privilege of the *solatium* should be any longer withheld from those entitled to it, now that the principle has been conceded, it has been decided to introduce a short amending Bill, which deals merely with this subject, with the intention that the larger Bill should be introduced as early as possible.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS FOR THE PORT OF CALCUTTA FOR THE YEAR 1920-21.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

CALCUTTA, THE 17TH JANUARY 1922.

RESOLUTION—No. 192Marine.

READ—

The Administration Report of the Commissioners for the Port of Calcutta for the year 1920-21.

General Features of the Administration.—The year under review completed the 50th year of the life of the Trust, and was marked by an improtant

change in the administration of the Port by the passing of an amending Act, authorizing the appointment of a whole-time salaried Chairman and a Deputy Chairman in place of a part-time Chairman and a Vice-Chairman. The gross tonnage visiting the port during the year approximated to that of the best pre-war years. The following statistics of traffic show the trade of the port as compared with the previous seven years :—

	1913-14.	1914-15.	1915-16.	1916-17.	1917-18.	1918-19.	1919-20.	1920-21.

Income.—The income for the year was the highest attained in the history of the Trust, being Rs. 2,66,08,0-2 against Rs. 2,23,55,614 of the preceding year. The chief increases occurred under the heads Jetties, Rentable lands and buildings, Wet docks and River dues.

The war surcharges were withdrawn from 31st March 1920, but in addition to other measures it was found necessary to impose a special scale of storage or rent charges from April 1920 to ensure the rapid removal of goods and thus to avoid congestion in the transit sheds.

Expenditure.—The total disbursements for the year, including a special appropriation of Rs. 25 lakhs to meet the depreciation of Sinking Fund investments amounted to Rs. 2,51,61,205 as against the revised estimate for the year of Rs. 2,41,91,945 and the actual expenditure of the preceding year of Rs. 2,25,51,875. The actual expenditure appreciably exceeded the revised budget estimates under the following heads :—

	Actual.	Revised estimate	Increase
	Rs.	Rs.	Rs.
Control	17,37,143	16,69,805	67,338
Jetties	21,31,121	20,74,163	56,958
Port	13,07,245	11,76,882	1,30,363
Port Approaches	14,52,222	12,87,349	1,64,873
Wet Docks	51,86,818	48,65,518	3,21,330
Interests and Sinking Fund charges ...	62,60,366	58,39,624	4,20,742
Difference on exchange	2,26,213	1,00,000	1,26,213

Jetties.—The tonnage handled at the Jetties was 684,990 tons in 1920-21, as compared with 713,746 tons in 1919-20. The decrease of 28,756 tons was attributable almost entirely to the high proportion of iron and steel and machinery in the cargoes dealt with. There was, however, a very marked increase in the earnings of the Jetties, the amount for the year being Rs. 62,16,693 against Rs. 22,44,027 in the preceding year. The increase was due chiefly to the higher rent charges ; but each berth in use was utilised on average for 347 days during the year compared with 265 days during 1919-20. The unprecedented number of heavy lifts brought out by import steamers greatly reduced the rate of discharge.

Docks.—One thousand one hundred and thirty-three vessels were berthed at the docks during the year under review as against 966 in the previous year. The tonnage of the Docks traffic was 413,357 tons imports and 4,180,119 tons exports, as against 653,066 and 3,411,455. There was a fall in the importations of rice and paddy nd Java Sugar and a remarkable increase in the exports of coal.

Inland Vessels Wharves, Budge-Budge.—There was a small decrease in the income from the Inland Vessels Wharves as compared with the previous year mainly due to a diminished traffic in rice and paddy, grain, seeds and betelnuts and in building materials.

One hundred and ninty-five vessels were berthed at Budge-Budge Petroleum Wharf during the year as compared with 150 in the preceding year.

Tea Warehouse.—The trade in tea decreased by about 25 per cent. in comparison with that of last year and the receipts were less by nearly Rs. 1 lakh chiefly under the head of storage charges.

Navigable Channels.—An important feature of the year was the extension of the boundaries of the port proper in a northerly direction from the present limits at Cossipore to Konnagore, while the limits of the navigable river and its approaches were extended north as far as Kalna in the district of Burdwan. It is anticipated that these developments will ensure in the future a more complete and effective control of the river channel. The river channels between the Sandheads and the Port were maintained in a satisfactory condition.

Night Navigation.—Owing to the heavy programme of work the annual overhaul of the gas and channel buoys was not completed by the end of the year, but satisfactory progress was made.

Capital Works.—The chief capital works in progress during the year were :—

1. King George's Dock. The commencement of this work was made and a commemoration stone was laid by His Royal Highness the Duke of Connaught on the 2nd February 1921.
2. Garden Reach riverside berths.
3. Reconstruction of No. 3 Calcutta Jetty.
4. The Rangoon Passenger Shed or Dharmasala, which was completed towards the end of the year. The greater part of the cost of this building was defrayed by Rai Mukhram Kanuria Bahadur.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Wheat Crop of Bengal, 1921-22.

(NOTE.—On an average of the five years ending 1919-20, the area under wheat in Bengal has represented some 0·4 per cent of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India, and (*b*) in the territory now reported on, has in the five years ending 1919-20, averaged (*a*) 42·3 and (*b*) 16·0 per cent., respectively.)

Explanatory.—Three forecasts of the wheat crop are published. This forecast deals only with the area sown and the general condition of the crop in its early stages.

Acreage.—According to the estimates of the District Officers, the total area sown amounts to 124,800 acres against 114,300 and 116,900 acres reported, respectively, in the corresponding and final forecasts of last year.

Character of the season.—The rainfall in September and October was generally defective throughout the Province but the moisture left in the soil was sufficient for the preparatory tillage and for the sowings of the crop which commenced generally in the normal time. Since then, complete drought has prevailed and the present condition is reported to be only fair.

Director of Agriculture, Bengal.

APPENDIX III.

REGULATIONS AS TO THE PHYSICAL EXAMINATION OF CANDIDATES FOR APPOINTMENT TO THE PUBLIC WORKS DEPARTMENT OF THE GOVERNMENT OF INDIA.

Note.—These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service; and that his discretion is in no respect limited by these Regulations.

It is not the practice to communicate to candidates who may be reported as physically unfit for service in India the reasons for the Medical Board's opinion.

General Physical Requirements.

1. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.

2. In the examination of candidates the Medical Board will apply the following table of correlation of age, height, and chest girth :—

Age.	Height without Shoes	Chest.	
		Girth when expanded	Range of expansion.
	Inches.	Inches.	Inches.
21 and upwards ...	62½ and under 65 ...	35	2
	65 „ 68 ...	35½	2
	68 „ 70 ...	36	2
	70 „ 72 ...	36½	2½
	72 and upwards ...	37	2½

3. *Measurement of Height.*—The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks, and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eighths.

4. *Measurement of Chest.*—The candidate will be made to stand erect with his feet together, and to raise his hands above his head. The tape will be carefully adjusted round the chest, with its posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. This maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and the maximum will then be recorded.

5. The hearing must be good.

6. The speech without impediment.

7. The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth where necessary for effective mastication.

8. The chest must be well formed, the lungs and heart sound.

9. Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other condition likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation.

10. The limbs, feet, and toes must be well formed and developed, with free and perfect motion of all the joints.

11. A candidate must have no congenital malformation or defect likely to interfere with efficiency.

12. A candidate must not be the subject of chronic skin disease.

13. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

Candidates may, if they wish it, undergo a preliminary examination by the Medical Board, which meets at the India Office every Tuesday, under the following conditions :—

(*a*) Applications must be addressed to the Under-Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas, and a statement as to the particular appointment which the candidate desire to obtain.

(*b*) Candidates must pay their travelling expenses.

(*c*) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may, *at their own risk*, continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board, prior to the examination, or to their appointment.

(*d*) On the other hand, it must be distinctly understood that the preliminary examination by the Medical Board is held solely for the candidate's information, and that, if after that examination he is reported to be apparently fit, he has not on that account any claim to be accepted as physically fit when he presents himself for the final medical examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.

REGULATIONS AS TO THE STANDARD OF VISION.

1. If myopia in one or both eyes exists, a candidate may be passed provided the ametropia does not exceed 3·5 D, and if, with correcting glasses not exceeding 3·5 D, the acuteness of vision in one eye equals $\frac{6}{9}$ and in the other $\frac{6}{6}$, there being normal range of accommodation with the glasses.

2. Myopic astigmatism does not disqualify a candidate, provided the lens, or the combined spherical and cylindrical lenses, required to correct the error of refraction, does not exceed 3·5 D; the acuteness of vision in one eye, when corrected, being equal to $\frac{6}{6}$, and in the other $\frac{6}{9}$, together with normal range of accommodation with the correcting glasses, there being no evidence of progressive disease in the choroid or retina.

3. A candidate having total hypermetropia not exceeding 4 D is not disqualified, provided the sight in one eye (when under the influence of atropine) equals $\frac{6}{9}$, and in the other eye equals $\frac{6}{6}$, with + 4D glasses, or any lower power.

4. Hypermetropic astigmatism does not disqualify, provided the lens or combined lenses required to cover the error of refraction do not exceed 4 D, and that the sight of one eye equals $\frac{6}{6}$, and the other $\frac{6}{9}$, with or without such lens or lenses.

5. A candidate having a defect of vision arising from nebula of the cornea is disqualified if the sight of one eye be less than $\frac{6}{12}$. In such a case the better eye must be emmetropic. Defects of vision arising from pathological or other changes in the deeper structures of either eye, which are not referred to in these rules, may exclude a candidate.

6. Squint or any morbid condition, subject to the risk of aggravation or recurrence, in either eye, may cause the rejection of a candidate. Any imperfection of the colour sense is a disqualification for appointment to the engineering branch of the Railway Department. In other cases the existence of imperfection of colour sense will be noted on the candidate's papers.

FOR ALL APPOINTMENTS UNDER THE INDIAN GOVERNMENT A DECLVRATION, AS FOLLOWS, IS REQUIRED FROM CANDIDATES.

1. I _____ declare upon honour that, to the best of my knowledge and belief, I am not at present suffering or affected with any form of disease or bodily infirmity such as—

APPENDIX V. (*See para. 17 of the Regulations.*)

NOTE.—This Appendix is merely intended to show the principal leave rules in the Fundamental Rules and the Pension Rules in the Civil Service Regulations at present applicable to Engineers appointed to the Indian Services from the United Kingdom without going into minute details, and does not profess to deal with every case that may arise. The rules are subject to alteration, and any disputed question must be decided with reference to the authorised text of the Fundamental Rules or Civil Service Regulations for the time being.

LEAVE.

Leave is calculated in terms of "leave on average pay," and the amount of "leave on average pay" for which an officer is eligible is five-twenty-seconds of the period spent on duty.

Subject to certain maxima and minima, an officer may draw, at his option, leave salary equal to the average pay of the last 12 months of completed duty or to half such average pay. All leave on average pay and half the period on half average pay is counted against the leave earned. An officer may take his leave on average pay, on half average pay, or on a combination of the two, provided that his continuous absence from duty does not exceed 28 months, and that the amount of leave taken on average pay does not exceed eight months at any one time. The maximum amount of leave admissible during an officer's career is the equivalent of leave on average pay for three years plus one-eleventh of the period spent on duty, of which not more than one year plus one-eleventh of the period spent on duty may actually consist of leave on average pay. Leave not due and carrying half average pay may be granted on medical certificate, and, within certain limits, for other reasons, but an officer will not again commence to earn leave until the expiration of a fresh period of duty sufficient to earn a credit of leave equal to the leave he has taken before it was due. After 28 months' absence from duty an officer draws quarter average salary, subject to certain maxima and minima.

Leave salary is ordinarily payable in rupees if the officer spends his leave in India or Ceylon, and in sterling if he spends it elsewhere. The rate of exchange for the conversion of leave salary is prescribed from time to time by the Secretary of State.

It should be noted that leave can never be claimed as of right, but is given or refused at the discretion of Government.

PENSIONS.

13. The following is a summary of the pension rules applicable to Engineers appointed to the Indian Services by the Secretary of State from the United Kingdom.

Ordinary Pensions.

14. Subject to the absolute right of the Government of India to decline to permit any officer to retire before reaching the age for superannuation, should it be necessary in the public interest to retain his services, officers will be allowed to retire optionally after 20 or more years' service.

15. Retirement is ordinarily required at the age of 55 years, but for special reasons an officer is sometimes retained after attaining that age.

16. An officer becomes eligible for full retiring pension on completing 30 years' qualifying service :—

17. If before completing this period of service an officer is permitted to retire voluntarily after completion of 20 or more years' qualifying service

(paragraph 14) or is compelled to retire on attaining the age of 55 (paragraph 15), he will be eligible for pension on the following scale :—

Years of Completed Service	Maximum Limit of Pension.
	Rs.
20	4,000 per annum.
25	5,000 ,,
26	5,200 ,,
27	5,400 ,,
28	5,600 ,,
29	5,800 ,,
30	6,000 ,,

18. Government may retire any officer after he has completed 25 years' service without giving reasons, and without any claim for compensation in addition to pension, and in that event the pension admissible to him will ordinarily be regulated on a scale not exceeding that laid down above. Government also reserves the general power to reduce the pension ordinarily admissible in all cases where an officer's service has been unsatisfactory.

19. An officer who is compelled to retire through ill-health not occasioned by irregular or intemperate habits will be eligible for gratuity or pension as follows :—

(*a*) After a service of less than 10 years a gratuity not exceeding (except in special cases and under the orders of the Government of India, up to a maximum of 12 months' emoluments) one month's emoluments for each completed year of service. If the emoluments of the officer have been reduced during the last three years of his service, otherwise than as a penalty, average emoluments may, at the discretion of the authority which has power to sanction the gratuity, be substituted for emoluments.

(*b*) After a service of not less than 10 years, a pension not exceeding the following amounts :—

Years of Completed Service	Scale of Pension.	Maximum.
		Rs.
10	10 sixtieths of average emoluments	2,000 per annum

28	30 " "	5,600 "
29	30 " "	5,800 "
30 and above	30 " "	6,000 "

Additional Pensions.

20. The Government of India have classified certain high appointments into two grades, the lower comprising those posts which involve high but intermediate responsibility, the higher consisting of those which require a marked degree of independent administrative and professional capacity. Officers who have held appointments listed in the lower grade will be entitled to an additional pension at the rate of Rs. 300 per year for each completed year of effective service in any appointment included in that grade provided that no officer may draw an additional pension in excess of Rs. 1,500 in respect of service classed in the lower grade. Officers who have held appointments listed in the upper grade will be entitled to an additional pension at the rate of Rs. 500 for each completed year of effective service rendered in any appointment included in that grade, provided that no officer may draw an additional pension in excess of Rs. 2,500 in respect of service rendered in the lower and upper grades combined or in the upper grade alone.

21. These additional pensions will be awarded only to officers who have given proof of special energy and efficiency, and will be subject to the condition that an officer must not retire voluntarily before the age of 55 with less than 28 years' service.

The upper grade includes the Secretary to the Government of India, Public Works Department, the Inspector-General of Irrigation, Chief Engineers of the Indian Service of Engineers, Agents of State Railways (if in pensionable service) and Chief Engineers, Railways.

The lower grade includes Superintending Engineers, Indian Service of Engineers, Deputy Secretary to the Government of India, Public Works Department, Deputy Agents of State Railways (if in pensionable service) and the Secretary, Railway Board (if in pensionable service).

PROVIDENT FUND.

22. A general Provident Fund, to which contribution is compulsory, has also been established on the following basis :—

(1) The contribution is compulsory up to 6¼ per cent. on salaries, with voluntary contributions of not more than a further 9¾ per cent. Subscriptions on leave of any kind are optional.

(2) Compound interest on such payments is annually credited by Government to each officer subscribing.

(3) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him, unconditionally, on quitting the Service; or, in the event of his death before retirement, to his legal representatives or such other person or persons as, under and subject to the rules of the Fund for the time being in force, may be entitled thereto.

For Office use only.

RESOLUTION.

IN the year 1908 an International Electro-technical Commission was formed with its headquarters in London for the purpose of carrying out the following resolution of the Chamber of Government Delegates at the International Electrical Congress of St. Louis in September 1904 :—

> "That steps should be taken to secure the co-operation of the Technical Societies of the world by the appointment of a representative Commission to consider the question of the standardisation of the Nomenclature and Ratings of Electrical Apparatus and Machinery."

2. Under the Status of the Commission each self-governing country desiring to join the Commission is authorised to form an Electro-technical Committee for its own country. The question of constituting a National Committee for India was considered by the Government of India in 1910. It was, however, decided to postpone its organization as the manufacture of electrical machinery in India was at that time on too small a scale to justify the formation of a Committee. The Government of India have, nevertheless, been represented at the meetings of the Commission and have subscribed regularly to its funds. Although little further progress has yet been made in the actual manufacture of electrical machinery in this country, the Government of India, after consultation with the more important firms interested in electrical matters in India, are of opinion that, in view of the large increase which has taken place in recent years in the sale and use of electrical machinery in this country, the time has now arrived when a local committee should be formed for the purpose of discussing points of interest specially relating to India, of forwarding to the Commission any resolutions which it may frame on the subject and, generally, of performing the functions of a National Committee.

3. According to the Statutes of the International Electro-technical Commission committees should be formed in each country by technical societies which deal with electrical engineering, either exclusively or in conjunction with other technical subjects, provided that such societies have been in existence for at least three years. In the absence of such technical societies a committee may be appointed by the Government. The Government of India are of opinion that the appointment of a National Committee may in the future most suitable be entrusted to the recently constituted Institution of Engineers (India), but as it was constituted as recently as the 13th September 1920 it will not possess the necessary authority until the 13th September 1923. For the intervening period the Government of India have therefore decided to constitute a National Electro-technical Committee for India under paragraph 3 of the Statutes of the Commission. The following gentlemen will form the first committee :—

(1) A. C. Coubrough, Esq., C.B.E. (of Messrs Mather and Platt, Limited, Calcutta).

(2) A. Cochran, Esq., C.B.E., M.L.C., M.I.N.A., M.I.E. (India), A.M.I.E.S., (of Messrs, Burn and Company, Calcutta).

(3) C. D. M. Hindley, Esq., M.A. (Cantab.), Chairman, Port Trust Calcutta.

4. The Committee will choose its own President and appoint a Secretary and proceed with its work in accordance with the Statutes of the International Electro-technical Commission. The subscription hitherto paid by the Government of India as a subvention to the Commission and towards the cost of its publication will in future be paid by the Committee to which the Government of India will, until further orders, make an annual grant of £130.

Ordered that a copy of this resolution be forwarded to all Local Governments and Administrations; to all departments of the Government of India; and to the members of the Committee; and that the resolution be published in the Supplement to the *Gazette of India*.

Secretary to the Government of India.
